1

This is a first level heading in HTML. With CSS, I will turn this into red color

This is a second level heading in HTML. With CSS, I will turn this into blue color

This is a third level heading in HTML. With CSS, I will turn this into green color

This is a *paragragh*. As you can see, I placed an empahisis on the word "paragraph". Now, I will change also the background color of the word "paragraph" to black, and its text color to green, all with just CSS.

The main essence of this tutorial is to:

- HTML
- CSS
- JavaScript

Next, I am going to add the following two numbers and display the result, all with JavaScript

First number: 2

Second number: 7

Therefore, the sum of the two of those numbers is: (placeholder for the answer)
